Professional Summary

Detail-oriented IT final-year student (BSc) seeking graduate opportunities in administration, data operations, and technical assistance. I enjoy bringing order to complex workflows and have built a solid foundation at the intersection of data, operations, and technical problem-solving. My experience spans hands-on operational roles, technical troubleshooting, and content review, teaching me how to manage information carefully and work with high accountability. I excel in roles requiring analytical reasoning, clear communication, and process improvement, and I am highly adaptable to diverse industries beyond traditional software development.

Education

BSc in Information Technology (Expected 2026)

North-West University (NWU) - Remote/Online

- **Focus:** Database theory, analytical reasoning, and system analysis.
- **Current Academic Standing:** 16 Distinctions to date across 27 graded modules.
- **Relevant Coursework:** Database Management (75%), Problem Solving for Managers (81%), Information Security (81%), Data Analytics (70%), Decision Support Systems.

CPD-certified Diploma in GDPR and Data Protection (2025)

Alison Online

National Senior Certificate (2023)

High School Hoopstad

- Graduated with an 83.14% overall average (Mathematics: 87%, Physical Sciences: 78%).

Experience

AI Expert Assistant (Feb 2026 - Current)

Mindrift / Toloka AI - Remote, Freelance

- Interpret and apply detailed task guidelines with precision in a deadline-driven remote environment.
- Analyse text, identify patterns, and evaluate AI-generated responses to produce structured, high-quality data for machine learning training.
- Successfully manage large volumes of tasks while maintaining accuracy and consistency, troubleshooting unclear instructions to ensure compliance with project standards.

Silo Technician & Data Clerk (Jun 2024 - Current)

JD Horn Boerdery BK - Seasonal

- Operate and manage silo components for 30,000+ metric tons of grain in a newly constructed agricultural facility.
- Streamline data-entry processes to ensure accurate data capture and reporting.
- Prepare detailed operational reports and communicate directly with management, resulting in considerable time savings for owners.

Multimedia Technician & Workflow Lead (Jan 2020 - Current)

NG Kerk Hoopstad - Freelance

- Redesigned multimedia software and hardware workflows, consolidating three roles into one while improving operational speed and reliability.
- Created onboarding materials and training guides using Microsoft 365 and Google Workspace, significantly reducing errors for new hires in their first 90 days.
- Manage team scheduling and workflows to ensure proper staffing for critical events (services, weddings, livestreams), minimizing conflicts and improving efficiency.

Projects & Achievements

- **AI Agent & Productivity Platform Projects:** Completed 23+ projects leveraging tools like Google Gemini Pro, MS 365 Copilot, and Excel to conduct research and prepare actionable client reports, streamlining processes to improve efficiency.
- **Workflow Optimization:** Reorganized and tightened information capture workflows across multiple environments, demonstrating a proven ability to spot issues proactively and enhance system structures.

Skills

Category	Details
Productivity & Office	Microsoft 365 (Advanced Excel: PivotTables, Power Query, Macros), Word, Teams. Google Workspace (Advanced Sheets formulas & dashboards), Docs, Keep, Forms.
AI & Automation	MS Copilot, Google Gemini, ChatGPT, Claude, Zapier, Prompt Engineering.
Data & Analytics	Python (automation, data manipulation), SQL (basic querying, reporting), and data visualization (Power BI, Google Data Studio, Excel dashboards).
Workflow Management	Monday.com, Asana, Trello, Notion, employee scheduling, and task assignment.
Core Competencies	Analytical thinking, process improvement, problem-solving, structured decision-making, typing (64 WPM, 100% accuracy), independent remote discipline.
Languages	English (Fluent), Afrikaans (Fluent).

Volunteering

- **Youth Group Leader**, High School Hoopstad (2022): Organized weekly sessions, improved participation, and mentored peers.
- **School Clothing Store Assistant**, High School Hoopstad (2024): Managed inventory and generated invoices.
